

Dear Family,

The journey has been rewarding since it has reminded me that the future is based on the past and that history repeats sometimes and is the basis of our future. I hope we learn from our History and do better since, our Family Tree has been the basis of much of Hollywoods movies over their history...

We look at our grandparents and find that they came to America from Canada and Europe to Pennsylvania. The Kraft's married the Stauffers in Lancaster and moved to mid Ohio and settled working on the farms in the area. Grandfather John Henry Kraft was in the Civil War and has his name on the wall in Cleveland Ohio. Grandfather Hugh lived with us from Lockland Ohio to Marion Indiana and talked about his knowledge of the Civil War he was almost an expert dad said. I found a Ships log that would suggest the possibility that John Henry Kraft and his Wife Eliza Mechling Kraft went to England after the Civil War and came back to America with a Stepdaughter named Margaret A. Binyon age 11 from Newtons Head Manchester, Blakely England. Her father (Quakers) wrote Children's books as did she and her sister later in life. She was a scholar and a Chemist by education, and if the story that John Henry Kraft was seriously injured in the Civil War when after taking the ramparts and feverishly working fell from the top and nearly broke or did break some legs, neck, something that caused him to not be able to work as others, and I heard he collected sawdust around the Ohio area and there is a Bechtel Farms in the area and a Bechtel Saw Mill... Could this be the start of Kraft Paper?

It looks feasible that the Kraft's in Lunenburg Nova Scotia started Kraft Foods... Then we have Stouffer Foods also in high probability, with Swanson Foods as a relative. Lunenburg is about 5 miles from Oak Island the supposed location of the Templar Treasure... Searched for by FDR and others over time, yet no disclosure of anything found, other than a Viking Rune Stone...

At Grandfather Hugh's funeral, I know there were Firestones there, and guess what, we have Sophia Firestone in our family tree...

Using Wikipedia you will find if you look up all of our family members over history, you will find that we are related according to Ancestry.com to be direct relatives of the Merovingian Dynasty all the way to Charlemagne and beyond, and there is a new concern called the New World Order, or NWO.

I hope that is just another script for another movie...

If not, God Bless you, and watch your six (back).

Since I was born in Sandusky Ohio on 12-21-1943 I have an increased sensitivity of the need to find a solution to the Mayans, and Nostradamus which shares my birthdate... I nearly died 3 days after Christening of Dreams do come true in Tampa, and on the way to the Sarasota General ER, and I clearly heard dad's voice telling me "Gordon what are you doing laying there, get up"... So that day changed my life and I started using Aloha as the third party conceptually for a path between Government and Church for all of us to realize that life is simple, welcome and goodbye it means in Hawaii, so invite a stranger to lunch or make a new friend today...

Jose Velasco took us to the Prado Museum in Madrid to show us his grandfather with the King of Spain and guess what we share the Velasco name in the Tree... That was 1992, so since I think he was active in Scientology with Brent Luckman and Robert... They must know our family tree...

Now I hear the term Easement and sense that my friends and family are under duress...

I believe that dad was setup so to speak in Cheyenne with an investment of all of his and mom's retirement funds into a project there that ended up with them getting into a problem that carried on for years, so if Indentured Servitude is a consequence of this once again, I would wonder who is responsible... It may have started before we went to Lunenburg, since it sounds like our grandfathers were poor and probably had to borrow money to get there...

Love,
Gordon
