Dear Lord,

The people are scared and some seek greater power.

The television is full of Documentaries and many are the reason that people are afraid.

I am not a perfect man, I am however humble and have tried to say in what I write positive things and observations of what I see and believe. I am only a man born on a date that connects me to the event people are worried about.

It is not my intention to scare or mislead others.

It is however my belief that now is the time for man to help his fellow man and forget and forgive others.

I have chosen to interpret Hawaiian Aloha as the positive attitude one should share with others.

Of the many creative works I have done, no one can claim as their own because I can create new original works. That is the gift you have given me.

I know you never wanted man to kill his fellow man, only man does that.

Wars never win because over time war is like the tides, territory taken, territory lost.

Now is the time to join together in your name.

amen.

Entrepreneur Incubators

copyright gkraft Jan. 2010

Entrepreneur Incubators are needed to provide a workspace for America's new creative ideas.

Yes, the Incubators to date have all failed because they got funding from cities and states, and management were not much more than Landlords...

The one thing that I learned promoting my friends and brothers to the level of President is that most people want the job, think they can do the job, but cannot.

So, I believe that my Entrepreneur Incubator Project has to be "for Profit" with the necessary Exec. Management, Mentors, Legal, Accounting, Marketing and Sales. And that we use a criteria to select the most promising new product and companies of tomorrow to embed into the Entrepreneur Incubator, with the Marketing Rights, Intellectual Property Rights owned and controlled by the Entrepreneur Incubator with a buy out clause for the Entrepreneur to be able to reach a certain plateau of success before we permit them to spin off on their own. Such is the purpose of an Incubator... These Entrepreneur Incubators need the support of the cities and state, but not the interference and control that is typical of today's Incubators or this will also fail.

America needs new Hope, ideas that are born from necessity the mother of all invention... America needs employment, eLearning, etc. The time is now. That is why I sent my new Venture to you, because we need to find the Barry's, Rick's, and Craig's of tomorrow...

The States need to do Trade Missions to Export the products that will turn around their economy now, not tomorrow...

Dec. 21, 2012

My birthday is Dec. 21, 1943 and the connection to my attention on 2012, since that is the date that many are afraid of...

Causes me to pay attention to the continuous Earthquakes and Volcanic Activity around the World.

If you do a Google Search for Dec. 21, 2012 you will find that there is over 26 million hits.

If you read my BLOG, www.talkstory.com I sometimes write about 2012, not many, ALL have me recommending that man needs to consider getting along with each other. I always write a positive approach to the date. And if you count the number of times I really write about 2012, it is less than 10 times. None of them predict that anything is going to happen, they all refer to what I read on the internet, and the newspapers.

I watch the History Channel (48 pages of videos on their website), as well as the Discovery Channel (several), as well as the National Geographic Channel, etc. they are constantly running documentaries about 2012 and the concerns of those that made these documentaries.

I have reached these conclusions:

Nostradamus and the **Mayans** had no way to forecast the exponential increase in the intelligence of man.

Nostradamus and the **Mayans** only could study the stars from their vantage point on the earth, and create Star Charts to base their predictions on. And they needed to go to places to find different angles of View...

Volcanos are the pressure relief valves of the earth. Just like a pot roast cooking in a pressure cooker uses a pressure relief valve today...

Geothermal Energy uses Scrubbers to clean the super heated energy output used to run the turbines to generate energy and this process is cleaner than most other forms of energy production, and is called a "Consistant Energy Supply". Read Wikipedia, and other Google hits on the subject.

The forecasts of Nostradamus and the Mayans define the alignment of the Planets on Dec. 21, 2012
